

Guiding Questions

Water and Culture

How is the value of water in our community reflected in ceremonies (religious or secular) or art, music, folk tales, poetry, and so forth?

The Source of Our Water

Where does our water come from? What is it like? Describe the general availability of water where you live.

Daily Usage

Describe a day in your life as it relates to water. Include how water is used

- in your home
- in your community
- in your workplace

Environment/Agriculture

Has the water quality in our area been improved or damaged by changes in our community or the environment?

Conservation

How does our community conserve water? Is it recycled? If so, how, and for what purpose?

Health and Nutrition

Is our drinking water fresh? What steps does our community take to make sure it is fresh? What steps do families take to make sure they have access to clean water? If our water is not fresh, how is it contaminated? How does this impact our community?

Recreation

Do children play water games? If so, describe the games. Are water sports popular in our community? If so, describe what is played.

Transportation

Do you live near a lake, river, or ocean? If so, how are these bodies of water used for traveling or transporting goods?
