

Water in Africa WebQuest

Research Pages

Directions: As you go through the steps of the WebQuest, use these pages to record notes and ideas.

Introduction

As you watch the slide show about Water Source Protection, answer the following questions:

1. What are the causes of the water problems Lauren describes?

2. What impact does the problem have on community members?

3. How does Lauren work with community members to implement a solution?

World Water Maps

Look at the maps provided in the WebQuest links and consider the questions on the slide.

Observations:

Questions:

Investigate the Problem: As you browse through the links provided in the WebQuest, use this chart to organize your notes. Use additional pages if necessary.
